

TURF WET SELECT™

30 DAY SOIL SURFACTANT

Turf Wet Select™ is a multi-polymer, high performance “tournament conditions” soil surfactant. Turf Wet Select greatly enhances uniform wetting, penetration, and soil rewetting characteristics. When used as directed, Turf Wet Select is a safe, non-burning formulation.

PRINCIPLE FUNCTIONING AGENT:

% BY WT

Blend of alkoxyated polyols and polyglycol ether ester. 100.00%

DIRECTIONS FOR USE:

Applications	Rates and Comments
Tees and Greens	Apply 6 oz per 1,000 square feet for initial application. Apply in split applications of 3 ounces every 14 days for subsequent applications or in monthly single applications of 6 oz per 1,000 sq. ft. Apply in 2 gallons of water per 1,000 sq.ft.
Fairways, Lawns, Athletic Fields	Apply 2 gallons per acre in a minimum of 90 gallons of water monthly.

First Aid Measures:

Eye Contact: Do not rub eyes. Immediately flush eyes with large amounts of water for 15 minutes. Seek medical attention.

Skin Contact: Remove contaminated clothing and immediately wash affected area with water for at least 5 minutes. If irritation or redness persists, seek medical attention.

If Swallowed: Give large amounts of water to drink. Seek medical attention if necessary. Induce vomiting only upon advice from a physician.

Inhalation: Move affected individual to fresh air and check to assure adequate respiration. Seek medical attention if necessary.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

GENERAL: Turf Wet Select™ is a blend of an advanced polymer and solvent chemistry. This chemistry is designed to support a uniform wetting and rewetting characteristic while providing a consistent penetration. Turf Wet Select's formulation delivers fast hydration, and reduces excessive moisture. It is use of two advanced surfactants that provide the ultimate playing surface. Recommended where tournament/game day conditions are demanded, golf courses, athletic fields, tennis, lawn bowling and other grass sporting fields.

Turf Wet Select, with its aggressive formula, improves moisture distribution in a variety of sand and non-sand based soil types relieving the effects severe stress conditions. When applied in a program prior to the onset of hydrophobic conditions, it will prevent their effects. Turf Wet Select will enhance rooting and overall turf vigor when used in monthly programs.

Turf Wet Select provides an efficient that improves irrigation use and water savings.

DIRECTIONS FOR USE: Greens, tees, fairways, lawns, parks and sports turf

Standard Program: Apply 4-6 fl oz. of Turf Wet Select per 1000 sq. ft. in 2 gallons of water (185 mL/100 m2 in 8 L of water). Apply monthly, beginning at least one month prior to the onset of stress conditions. Irrigation should be applied before next mowing to enhance product movement into the soil.

Weekly & Biweekly Program: Initial application; apply 4-6 fl oz. of Turf Wet Select per 1000 sq. ft. in 2 gallons of water (185 mL/100 m2 in 8 L of water). After initial applications, apply weekly at 1 fl oz per 1000 sq ft, or biweekly at 2-3 fl oz. per 1000 sq ft. Initial 4-6 fl oz. applications are critical to maintaining a weekly or biweekly program.

Tank Mixing: Turf Wet Select may be tank mixed with other commonly used turf chemicals and fertilizers at rates not to exceed 6 oz per 1000 sq. ft. If applicator is unfamiliar with the performance of this product in tank mixes under user's growing conditions, Turf Wet Select should be tested prior to large-scale application. The applicator should always exercise judgment and caution when using this and all other turf products. Tank mixing Turf Wet Select other products is intended as a matter of convenience; this product is not intended to enhance the performance of other tank mixed components.

TURF WET SELECT[™]

30 DAY SOIL SURFACTANT

SHAKE WELL BEFORE USING

PRECAUTIONARY STATEMENT

Harmful if absorbed through skin, do not get in eyes or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment: Wear chemical resistant gloves, Long-sleeved shirt and long pants, and shoes plus socks.

FIRST AID

EYE CONTACT:	Do not rub eyes. Immediately flush eyes with large amounts of water for 15 minutes. Seek medical attention.
SKIN CONTACT:	Remove contaminated clothing and immediately wash affected area with water for at least 5 minutes. If irritation or redness persists, seek medical attention.
IF SWALLOWED:	Give large amounts of water to drink. Seek medical attention if necessary. Induce vomiting only upon advice from a physician.
INHALATION:	Move affected individual to fresh air and check to assure adequate respiration. Seek medical attention if necessary.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition.

DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best method of disposing containers if allowed by law. The Agriculture Recycling Container Counsel (ACRC) operates the national recycling center program. To contact your state and local ACRC visit the ACRC website at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CLEAN UP: Rinse each spray tank out after each use and flush thoroughly.
