

ORANGE PEEL™

**ORGANIC
DEGREASER • DEODORIZER • DECLOGGER**

CAREFULLY READ SIDE PANEL

**KEEP OUT OF REACH
OF CHILDREN**

Net Content: 1 Quart (.95 liters)

DESCRIPTION

Orange Peel™ is an all natural, solvent degreaser for extremely heavy duty soils. It contains no petroleum or chlorinated solvents. Orange Peel™ is 100% active, a blend of 90% d-limonene and 10% detergent surfactants. It quickly penetrates and dissolves grease, oil, dirt, cosmoline, tar, gum, rubber marks, carbon, creosote, inks and adhesives.

DIRECTIONS

Removing tar, gum, adhesives, etc.: Apply product full strength. Allow time for penetration. Agitate, wipe or rinse away soils.

Declogging and maintaining drain lines & grease traps: Use weekly to keep drains free flowing and sanitary. Pour 8 ounces down drain. Let stand for 10 minutes, then flush drain with hot water. If drain is slow, repeat every 2 to 3 days until drain flows freely.

Deodorizing: Add 4 ounces to a gallon of cold water. Spray or mop onto surface. Controls odors around dumpsters, septic tanks, sewage treatment plants, kennels, etc. Can be applied by drip method or fogging around sewage treatment plants.

Degreasing: For general cleaning and degreasing use 4 ounces to a gallon of water. Let stand for several minutes then rinse thoroughly. Dilution will vary depending on the severity of the soil.

For engines and machinery use product full strength. Spray, brush or sponge a liberal amount of

Orange Peel™ onto surface. Allow five minutes to penetrate thoroughly. Rinse with a hose, pressure washer or steam equipment. Use a hot water rinse for best results.

Cold Dip Tank & Parts Washing: Immerse engine and machinery parts in Orange Peel™. Rinse clean with hot water.

WARNING

Flammable Liquid

May cause irritation to eyes and skin

Harmful if swallowed

Contains Citrus Terpene (68647-72-3) and Nonionic Surfactant. Prolonged skin contact can de-fat skin. Do not use near heat or open flame. Store in a cool place away from extreme heat or open flames. Wear appropriate protection to avoid eye and skin contact.

FIRST AID

IF SWALLOWED - Do not induce vomiting. Get immediate medical attention.

IF EYE CONTACT - Flush with water for 15 minutes, lifting upper and lower lids. Get medical attention.

IF SKIN CONTACT - Wash affected area immediately with soap and water. If irritation persists, get medical attention.
